# The project

*Atlas Plan Official Fabricators is an international project promoted by Atlas Plan, dedicated to fabricators processing or willing to process porcelain stoneware.*

Porcelain stoneware is the ideal material for the creation of products for the furniture sector with high aesthetic and performance quality. It is therefore of the utmost importance to know the most suitable technical parameters and processing methods.

The project is aimed at creating a successful partnership to guarantee the fabricator the necessary support to obtain high quality finished products and maximise customer satisfaction.

## The steps

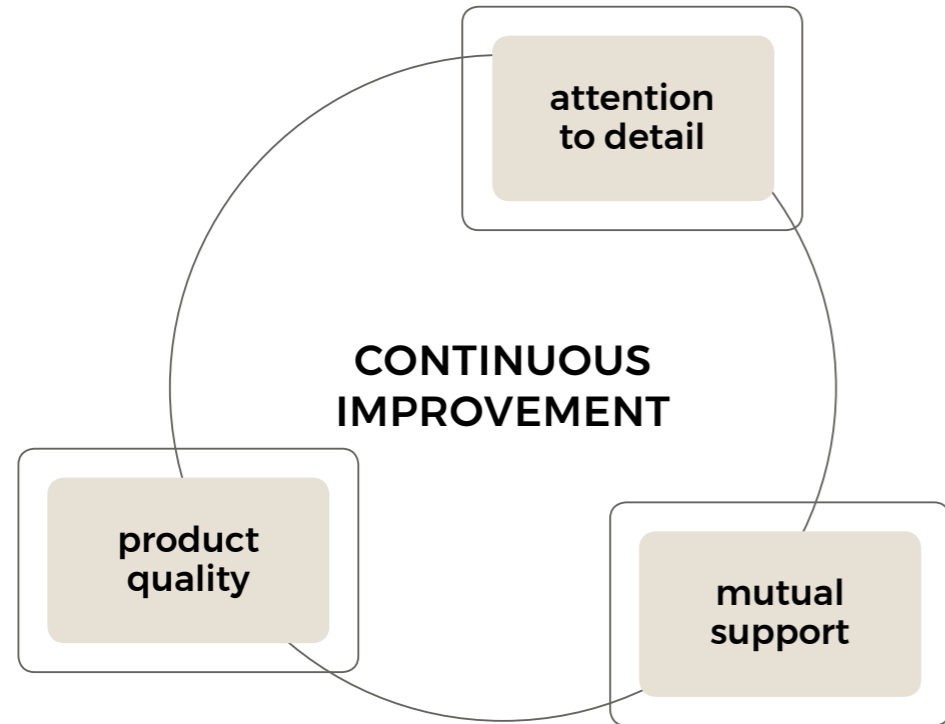

*Atlas Plan periodically organises free training events in collaboration with its technical partners on: processing, bonding and treatment of large slabs.*

To obtain the Atlas Plan Official Fabricator certification, it is necessary:

- 1** Read and complete the document Atlas Plan - Partner Survey providing information on the machinery and parameters used for processing porcelain stoneware.
- 2** To carry out cutting tests on our material in your fabrication shop, with the presence of an Atlas Plan technician or sales representative.

## SHARED VALUES

## A successful partnership

The certified fabricator and Atlas Plan work together and share information and good manufacturing practices with a view to continuous improvement.

*The certified fabricator receives documentation, support and continuous updating from Atlas Plan.*
